Dedicated to The Faculty

We the class of 1958 dedicate this annual to the faculty of our school. They have given us leadership and guidance since we began school twelve years ago. Each one has played a part in helping us grow up.

Now we wish to thank them for their consecrated effort in teaching us. Not only have they taught us book knowledge, but they have taught us standards of life that we will always remember.

For this and everything else they have done we say "Thank you."

For the third year it is again a great privilege to say thank you to the faculty and students of Milford for a good school year.

It is a commonplace to call your attention to the fact that you are most fortunate in being in these United States, and living in a free state that is great enough, to give you the opportunity to receive a free education supported by millions of Texans who are interested enough in the future to provide the best that money can buy for its youth, in the way of educational facilities.

Remember this when there is a temptation to speak lightly of your country, your state, your school. Think of the less fortunate millions, who have no country, no state, no school, and the millions of others who having them have still no liberty or freedom.

Take advantage of your opportunity and make the challenge for life ahead.

Sincerely yours,

L. H. Neal
